

Counterfeit Parts Policy Statement

An alarming change has taken place in the electronics marketplace. In recent years counterfeit electronic components have found their way into the marketplace. This phenomenon is having serious and far reaching consequences for manufacturers, distributors and end users.

Well established companies like East Coast Microwave are combating this challenge by only working directly OEM manufactures as an authorized — Franchise distributor.

East Coast Microwave Sales & Distribution, LLC. "IS" a franchise distributor of RF and Microwave components, connectors and cable assemblies. As mentioned, our policy is to obtain electronic parts that are in production or currently available in stock from the original manufacturers of the parts or their authorized dealers who obtain such parts exclusively from the original manufacturer of the parts of their authorized dealers. East Coast Microwave will directly flow down the counterfeit avoidance and detection requirements to all our subcontractor suppliers.

You can be confident

- Our products have been handled and stored in accordance with quality standards. ISO9000:2000
- ECM stands behind our products and address any warranty issues by working directly with our OEM partners.
- ECM Possess a full range of up-to-date technical and product information from all OEM manufactures and makes that information available upon request.
