JOHNSON®

Guaranteed Performance for Semiconductor and Microwave Components Testing

Manufacturers of Semiconductors and Microwave Components understand how critical launching an RF connector to a PCB at millimeter wave frequencies can be. These companies look to **Cinch Johnson** for all their Edge Launch Connectivity needs. Cinch Johnson Connectors are carefully engineered for design, simulation, and installation, guaranteeing performance at high frequencies.

East Coast Microwave Sales & Distribution Inc. is delighted to announce that the **Cinch Johnson family of Edge Launch connectors** are available from stock for our Woburn MA facility.

Edge Launch Connectors
