

## East Coast Microwave Sales and Distribution LLC (ECM) and AmpliTech Inc Announce Exclusive Distribution Agreement

November 9<sup>th</sup> 2016, WOBURN, Massachusetts and New York – ECM and AmpliTech today announced an exclusive distribution agreement to stock and supply AmpliTech’s State-of-the-art room temperature and cryogenic low noise amplifiers.

“We are delighted to partner with the world’s leading provider of ultra-low noise amplifiers” said Alan Mond – President and CEO of ECM “AmpliTech continues to lead the industry with best in class performance and design and this partnership solidifies ECM’s position in the marketplace as the “One stop source and Trusted advisor” for the Microwave and RF connectors and components”.

AmpliTech’s products are available from stock at [www.ECMstockroom.com](http://www.ECMstockroom.com)

### About East Coast Microwave Sales & Distribution LLC

Founded in 1988, ECM is an AS9100 Rev C – AS9120 Rev A - ISO 9001: 2008 certified small business and a FRANCHISED Stocking distributor of over twenty five world class manufacturers of RF/Microwave coaxial connectors, cables, cable assemblies and components.

### About AmpliTech Inc

AmpliTech Inc. designs, develops, and manufactures custom and standard state-of-the-art RF (Low Noise Amplifiers (LNA) and Power Amplifiers (PA) for the Domestic and International, SATCOM, Space, and Military markets. These designs cover the frequency range from 50 kHz to 40 GHz -- eventually, offering designs up to 100 GHz. AmpliTech also provides consulting services to help with any microwave components or systems design problems. Our steady growth over the past 13+ years has come about because we can provide complex, custom solutions for nearly ANY custom requirements that are presented us. In addition, we have the best assemblers, wires, and technicians in the industry and can provide contract assembly of customers' own designs. Click here to view AmpliTech video.
