

January 2017 - East Coast Microwave Receives ISO 14001 Certification from NSAI

January 3rd 2017

East Coast Microwave Sales and Distribution LLC., a major distributor of RF/Microwave Connectors and Components, today announced that it has achieved ISO 14001 certification.

The internationally acknowledged ISO 14001 Environmental Management System certification recognizes companies that have adopted environmental responsible practices in their business processes. In line with its sustainability strategy, East Coast Microwave undertakes to minimize its environmental footprint by increasing its energy efficiency and to continuously improve measures taken to protect the environment and people when serving its customers.

Alan Mond – President and CEO said: “We are delighted to receive this certification is part of our continuous environmental commitment. This is a key milestone in the company’s strategy to be a leader in its industries with an outstanding environmental performance. This certification expands on our exceptional quality management system and allow us to deliver optimum service for our customers in conformity with all environmental regulations”.
